

Texas Health Center Patients

Health centers maintain an open-door policy, ensuring everyone receives care regardless of financial status. For patients without insurance who self-pay, health centers use sliding scale fees based on patient income.

HEALTH CENTERS: A STRONG COMMUNITY INVESTMENT

Texas Health centers serve 12.2% of the Medicaid population in the state and comprises only 1.2% of the TX Medicaid budget. Health centers are a driving economic force in their communities, adding over \$2.3 billion annually* to the Texas economy, employing 11,850 staff and generating 16,107 jobs.

Revenue Sources

Health center revenue comes from a variety of sources. Medicaid dollars represent the largest source, accounting for **24%** of total health center funds. Health centers also receive **20%** of their revenue from federal grants used primarily to fund care for the uninsured. State and local funding comprise **7%** of health center revenue. Patient self-pay revenues account for **5%** of total health center income.

Economical Care

Health centers provide preventive care and assist patients to effectively manage chronic conditions such as hypertension and diabetes. Research shows that effective preventive care and chronic disease management reduces the need for more costly hospital emergency room care, saving the healthcare system \$24 billion every year. *Source: IMPLAN 2018 Data and Health

Community Health Centers: Caring for Texas Families

Average Annual Cost of Caring for Patients

Medical \$658

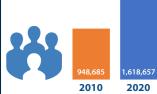

Dental \$640

Behavioral Health \$750

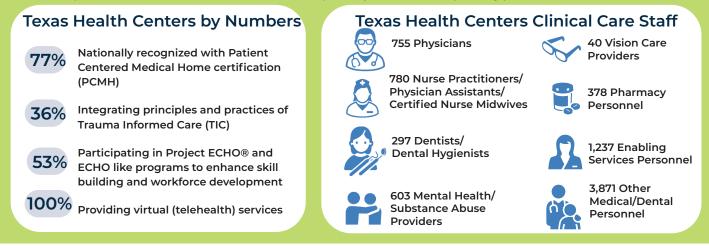

Patient Growth

70% Increase

EXPANDING A QUALITY WORKFORCE

Texas health centers depend upon a primary care workforce of 7,900 integrated and multidisciplinary clinical care staff members to provide high quality, patient-centered care that is comprehensive, accessible and affordable. Health centers are building the infrastructure that supports coordinated care, continuity of care and quality improvement in order to enhance access to primary care while improving patient health outcomes.
